**Goals**

**7000**

Since educational programs are dependent on adequate funding and the proper management of those funds, District goals can best be attained through efficient fiscal management. As trustee of local, state and federal funds allocated for use in public education, the Board shall fulfill its responsibility to see that funds are used to achieve the purposes intended.

Because of resource limitations, fiscal concerns often overshadow the educational program. Recognizing this, the District must take specific action to ensure that education remains primary. This concept shall be incorporated into Board operations and into all aspects of District management and operation.

In the District's fiscal management, the Board seeks to achieve the following goals:

1. Engage in advance planning, with staff and community involvement, to develop budgets that will achieve the greatest educational returns in relation to dollars expended.
2. Establish levels of funding which shall provide superior education for the District's students.
3. Provide timely and appropriate information to staff who have fiscal responsibilities.
4. Establish efficient procedures in all areas of fiscal management.

**Budget and Program Planning**

**7100**

The annual budget is evidence of the Board's commitment to the objectives of the instruction programs. The budget supports the immediate and long-range goals and established priorities within all areas, instructional, non-instructional and administrative programs.

Prior to presentation of the proposed budget for adoption, the Superintendent shall prepare, for the Board's consideration, recommendations (with supporting documentation) which shall be designed to meet the needs of students within the limits of anticipated revenues.

Program planning and budget development shall provide for staff participation and the sharing of information with patrons prior to action by the Board.

Following preliminary planning and no later than twenty-eight (28) days prior to the Board's annual meeting, the proposed budget shall be available and a public hearing on the budget shall be held. At the public hearing, or at a special meeting held no later than fourteen (14) days after the public hearing, the Board shall adopt a budget for the ensuing year.

Not later than April 30 of each year, the budget hearing shall be scheduled. The Clerk of the Board shall notify the County Clerk of the date and location set for the budget hearing. In the event no budget hearing will be held, the County Clerk will be so notified. Proper notice of the budget hearing shall be posted as required by law, and a copy of the proposed budget shall be available for public inspection at all reasonable times at the administrative offices of the District.

A summary statement of the budget shall also be prepared and published for the ensuing year. The statement shall be in a manner consistent with standard accounting principles and in such form as required by the State Superintendent of Public Instruction. The summary statement shall show the following:

1. Amounts budgeted for all major classifications of income and expenditures, with total amounts budgeted with salary and wage expenditures in each such classification shown separately;
2. Amounts previously budgeted for the two (2) previous years for the same classification of proposed comparison.

The budgeted dollar amounts of revenue—as approved within the adopted budget—in those categories included in Idaho Code Section 33-802, which deals with school levies, will be the same as presented to the respective county commissioners for tax levying purposes.

Once the budget is approved by the Board, it will serve as a spending plan for the fiscal year. However, the Board will have the authority to amend the budget as provided by law when circumstances warrant.

Purpose

The Board recognizes the need to implement the required accounting and financial reporting standards set out in Governmental Accounting Standards Board Statement 34 ("GASB 34"). The primary objectives of implementing the GASB 34 are to assure compliance with state requirements, and to properly account for both the financial and economic resources and to provide new and additional information to users of District financial statements.

Authority

Participation of and reporting shall be in accordance with Board policy, State of Idaho Fiscal Policies manuals as prepared by the office of the State of Idaho Controller's Office and GASB 34.

Delegation of Responsibility

The responsibility to coordinate the compilation and preparations of all information necessary to implement this policy is delegated to the Superintendent in cooperation with the District Accountant. School District personnel at all levels are responsible to the Board of Trustees for the safeguarding, stewardship, efficiency and effectiveness of use, and the accountability for fixed assets under their jurisdiction and /or control.

The purchase or acquisition and use of all fixed assets shall be in accordance with all applicable federal, state, local and school District statutes, regulations, and policies. All District personnel shall share the responsibility for assuring that the District fixed assets are used efficiently and effectively in accordance with District policy to achieve the goals and objectives of the District.

The designated individual shall be responsible for implementing the necessary procedures to establish and maintain a fixed asset inventory, including depreciation schedules. Depreciation shall be computed on a straight-line basis over the useful lives of the assets, using an averaging convention. Normal maintenance and repairs shall be charged to expense as incurred; major renewals and betterments that materially extend the life or increase the value of the asset shall be capitalized. A schedule of accumulated depreciation shall be consistent from year to year. The basis for depreciation, including groups of assets and useful lives, shall be in writing and submitted for review to the Board of Trustees.

The Superintendent in Cooperation with the District's Accountant shall prepare the required Management Discussion and Analysis (MD&A). The MD&A shall be in the form required by GASB Statement 34 and shall be submitted to the board for approval, prior to publication.

Prior to submission of the MD&A for Board approval, the independent auditors shall review the MD&A, in accordance with SAS No. 52, "Required Supplementary Information."

Guidelines

Accounting records for fixed assets and fixed asset transactions shall be maintained in such a manner as to provide information to promote sound fiscal management, to assess management accountability and to assist interested parties with decision-making about the District's management of fixed assets.

Periodically, at a suitable time, the District management shall conduct a physical inventory of the fixed assets that shall be compared to the accounting records.

In order to associate debt with acquired assets, and to avoid net asset deficits, any asset that has been acquired with debt proceeds shall be capitalized, regardless of the cost of the asset. The asset life of these assets shall be considered relative to the time of the respective debt amortizations.

For all other assets not acquired by debt proceeds, the dollar value of any single item for inclusion in the fixed assets accounts shall be not less than \$5,000.

The capitalization threshold shall be set at a level that will capture at least 80% of all fixed assets valued at \$5,000 or more.

The assets listed below do not normally individually meet capitalization threshold criteria:

1. Library books
2. Classroom texts and workbooks
3. Computer equipment
4. Classroom furniture

These asset category costs shall be capitalized and depreciated as groups when that group's acquisition cost exceeds the capitalization threshold in any given fiscal year.

For group asset depreciation purposes, the estimated useful life of the group may be based on the weighted average or simple average of the useful life of individual items, or on an assessment of the life of the group as a whole. Periodically, the intermediate unit shall review the estimated life of groups of assets and adjust the remaining depreciation life of the group.

Assets that fall below the capitalization threshold for GASB 34 reporting purposes may still be significant for insurance, warranty service, and obsolescence/replacement policy tracking purposes. The intermediate unit may record and maintain these non-GASB 34 asset inventories in subsidiary ledges.

Capitalization Policy for Fixed Assets

As used herein, the term "fixed assets" refers to the land, buildings, improvements, machinery, equipment, furnishings, facilities, property, and other resources purchased or otherwise acquired by the District to be utilized in accomplishing the District's goals for a period of time that extends beyond one budget period.

**TROY SCHOOL DISTRICT #287**

**7000 – FINANCIAL MANAGEMENT**

**GASB Statement 34 (Accounting System) (continued)**

7210

1. Must be tangible in nature.
2. Must have a useful life of longer than the current fiscal year.
3. Must be of significant value.

The asset value, when purchased, will be the initial cost plus the trade-in value of any old asset given up, plus all costs related to placing the asset into operation. The cost of self-constructed assets will include both the materials used and the cost of labor involved in the construction of the asset.

The following significant values will be used for different classes of assets:

<u>Class of Fixed Asset</u>	<u>Significant Value</u>

Buildings - Improvements	\$5000.00 or more
Improvements other than buildings	\$5000.00 or more

Fiscal Accountability and IDEA Part B Funds

The District must ensure fiscal accountability at each phase in the use of Individuals with Disabilities Education Act (IDEA) Part B funds. The purpose of this policy is to ensure that the District complies with the State Department of Education requirements described in the Idaho State Department of Education IDEA Funding Manual.

Use of IDEA Part B Funds

The District shall use IDEA funds only to pay excess costs of providing special education and related services to children with disabilities. A cost is determined to be an excess cost of providing special education only if it meets each of the following criteria:

- The cost would not exist in the absence of special education needs.
- The cost is not also generated by students without disabilities.
- If the cost is specific to a particular child and it is documented in that child is on an Individual Education Plan (IEP).

The Board directs the Superintendent to establish procedures and internal controls to ensure that IDEA Part B funds are used only for allowable, excess costs of providing special education and that these costs are accounted for in the proper function/program codes described in 34 CFR 300.202-205. These procedures and controls shall also ensure the accuracy of the District's Excess Cost Calculation, as required by 34 C.F.R. 300.16 and Appendix A to 34 C.F.R.300.

Time and Effort Reporting

In order to determine if Personnel Costs are allowable under IDEA Part B, the District shall maintain auditable "time and effort" documentation that show how each employee paid with IDEA Part B funds spent his or her compensated time. Such documents are written reports of how the time was spent.

The Board directs the Superintendent to establish a system for time and effort reporting that complies with the requirements of OMB Circular A-87 and OMB Circular A-133.

**Maintenance of Effort [ONLY REQUIRED FOR DISTRICTS THAT USE ONLY LOCAL FUNDS FOR THE CALCULATION OF MAINTENANCE OF EFFORT]**

In order to ensure that the requirement of Maintenance of Effort is met, the Board directs the Superintendent to establish a means of tracking and reporting local expenditures separate from the expenditure of state funds. This is to be done for the purpose of verifying that local funds are used for special education expenditures.

Parentally-Placed Private School Children

The District must ensure that it is providing the appropriate portion of IDEA Part B funds to children receiving special education at private schools within the boundaries of the District. To accomplish this, the Board directs the Superintendent to establish procedures to accurately track and report expenditures for services provided to Parentally-Placed Private School Children.

Property Procurement and Tracking

The Board directs the Superintendent to establish written procedures to ensure that the District's mechanism for procurements using IDEA Part B funds conforms to the standards outlined in 34 C.F.R. 80.36. The Board also directs the Superintendent to establish a system to maintain adequate inventory management of property purchased with IDEA Part B funds.

Property records in the inventory management system should include, at a minimum:

- Property description;
- Identification number;
- Source of funding;
- Acquisition date and cost;
- The location, use, and condition of the property;
- Any ultimate disposition data including the date of disposal and sale price of the property.

In addition to the above information, the inventory management system should ensure that all source documents in support of the above information are maintained throughout the life and disposition of the equipment. These records should be updated frequently so that every piece of equipment purchased with federal funds can be accounted for at any given time.

Retention of Records

The Board directs the Superintendent to ensure that fiscal records are retained for a minimum of three (3) years from the obligation of funds. These records shall be available for inspection if required.

**Advertising in Schools/Revenue Enhancement**

**7310**

Revenue enhancement through a variety of District-wide and District approved marketing activities, including but not limited to advertising, corporate sponsorship, signage, etc., is a Board-approved venture. These opportunities are subject to certain restrictions as approved by the Board in keeping with the contemporary standards of good taste. Such advertising shall seek to model and promote positive values for the students of the District through proactive educational messages and not just traditional advertising of a product. Preferred advertising includes messages that encourage student achievement and the establishment of high standards of personal conduct.

All sponsorship contracts shall allow the District to terminate the contract at least on an annual basis if it is determined that it will have an adverse impact on implementation of curriculum or the educational experience of students.

The revenue derived should:

1. Enhance student achievement;
2. Assist in the maintenance of existing District athletics and activity programs; and
3. Provide scholarships for students participating in athletic, academic and activity programs who demonstrate financial need and merit.

Appropriate opportunities for these marketing activities include but are not limited to:

1. Fixed signage
2. Banners
3. District-level publications
4. Television and radio broadcasts
5. Athletic facilities, to include stadiums, high school baseball fields, and high school gymnasiums
6. District level projects
7. Expanded usage of facilities beyond traditional use (i.e., concerts, rallies, etc.)
8. Interior and exterior of a limited number of District buses only if the advertising is associated with student art selected by the District. The only advertising shall note that the student art is sponsored by the participant in the District sponsorship. Maintenance for these buses shall include but not exceed normal maintenance costs.
9. Individual school publications (when not in conflict with current contracts).

Advertising shall not be allowed in classrooms, and corporate-sponsored curriculum materials are subject to the requirements of Board policy.

The following restrictions shall be in place when seeking revenue enhancement. Revenue enhancement activities will not:

1. Promote hostility, disorder or violence
2. Attack ethnic, racial or religious groups
3. Discriminate, demean, harass or ridicule any person or group of persons on the basis of gender
4. Be libelous
5. Inhibit the functioning of the school and/or District

Purchasing

Authorization and Control

It is the policy of this District to conduct its purchasing program in a manner to optimum use of District funds. The Board, or its designee, reserves the right to determine what is in the best interest of the District.

The Superintendent is authorized to direct expenditures and purchases within the limits of the detailed annual budget for the school year and pursuant to State purchasing and federal procurement requirements. Board approval for purchase of capital outlay items is required when the aggregate total of a requisition exceeds \$25,000, except the Superintendent shall have the authority to make capital outlay purchases without advance approval when it is necessary to protect the interests of the District or the health and safety of the staff or students. The Superintendent shall establish requisition and purchase order procedures as a means of controlling and maintaining proper accounting of the expenditure of funds that align with State purchasing and federal procurement requirements. Staff members shall not obligate the District without express authority. Staff members who obligate the District without proper authorization may be held personally responsible for payment of such obligations.

Bids and Contracts

With the exception of the purchase of curricular materials, and in accordance with the requirements of Idaho Code, whenever the cost of any construction, repair, or improvement; or the acquisition, purchase, or repair of any equipment; or other personal property necessary for the effective operation of the District exceeds \$50,000, bids shall be called for by issuing public notice as specified in statute as well as following federal procurement requirements. Specifications shall be prepared and be made available to all vendors interested in submitting a bid. The contract shall be awarded to the lowest responsible bidder, except that the Board may reject any bid, reject all bids, or publish notice to rebid the project. If after calling for bids a second time, no satisfactory bid is received, the Board may proceed under its own direction, subject to the approval of the State Board of Education.

When purchasing good and services pursuant to Idaho Code, and determining the most qualified bidder for award of the contract, the District, at its sole discretion, may consider not only the amount of the bids, but may also consider additional factors including but not limited to the relative experience, ability, references and integrity of the bidders to do faithful and conscientious work and promptly fulfill the contract according to contract requirements.

Except where a Request for Proposals is advertised, in the event the District awards a contract to a bidder other than the lowest responsive bidder, the Board shall declare its reason or reasons

on the record and shall communicate such reason or reasons in writing to all who have submitted a competing bid. The disappointed bidders shall have the right to submit a timely written objection, at which time the District shall stop all work on the project, and shall review its decision and determine whether to affirm its prior award, modify the award, or choose to re-bid, setting forth its reason or reasons therefor. After completion of the review process, the political subdivision may proceed as it deems to be in the public interest.

The Superintendent shall establish bidding and contract awarding procedures that align with State purchasing and federal procurement requirements.

### Cooperative Purchasing

The District may cooperatively enter into contracts with one or more districts to purchase materials necessary or desirable for the conduct of the business of the District provided that the purchasing cooperative follows State purchasing and federal procurement requirements.

### Personnel Conflicts of Interest

No employee will make any purchase or incur any obligations for or on behalf of the District from any private business, contractor, or vendor in which or with which the employee has a direct or indirect financial or ownership interest.

Purchases or contracted services from any private business or venture in which any employee of this District has a direct or indirect financial or ownership interest will be made on a competitive bid basis strictly in accordance with the following procedures:

1. The interested employee, the business, the contractor, or the vendor will fully disclose, in writing, the employee's exact relationship to the business, the contractor, or the vendor;
2. The affected business, the contractor, or the vendor may submit a bid in compliance with the specifications outlined by the District;
3. The interested employee will not be involved in any part of bidding process, including but not limited to, preparing specifications, advertising, analyzing, or accepting bids; and
4. This policy will apply to any organization, fund, agency, or other activity maintained or operated by the District.

No employee will solicit gifts, gratuities, favors, prizes, awards, merchandise, or commissions as a result of ordering any items or as a result of placing any purchase order with a business, contractor, or vendor on behalf of the District nor accept anything of monetary value from a business, contractor, or vendor except for unsolicited gifts of \$50 or less in value.

The Board may enter into service contracts with independent contractors as necessary for the operation of the District. The Board shall comply with the requirements of Idaho Code Section 67-2800, et seq., relative to competitive bidding for such contracts and this District's Policy 7400 entitled "Purchasing".

The Board may enter into personal service contracts, as determined to be in the best interest of the District, to carry out its responsibilities and duties in governing the district and accomplishing the District's educational goals and objectives. Such contracts are exempt from statutory bidding requirements.

The Board of Trustees of this District authorizes the Superintendent or designee to enter into agreements with private service providers when he/she determines that the necessary educational services are not available through the District or that it is in the best interest of a student and the District to enter into an agreement with a private service provider. Such agreements may be entered into for services identified on a student's IEP or 504 plan, or for other educational services as needed by the District. In no event shall such agreement exceed twelve (12) calendar months.

Any agreement signed by the Superintendent/designee with private service providers, pursuant to this policy, shall set forth the terms of the agreement, the relationship of the parties, the services to be provided, provisions for record keeping and confidentiality of records, the billing procedures, as well as other terms that are deemed to be necessary.

The Superintendent/designee shall select private service providers pursuant to this policy based on their qualifications, work experience, availability, lack of conflict of interest with the District, and financial stability. While the Superintendent/designee may also consider a parent's request for a particular service provider, such request will not be the controlling factor in selecting a private service provider.

No private service providers hired under this policy shall be considered employees of the District. Further, all private service providers, and their employees, shall be fully qualified for the services for which the agreement specifies.

**District Credit Cards**

**7440**

The Board of Trustees permits the use of District credit cards by certain school officials to pay for actual and necessary expenses incurred in the performance of work-related duties for the District.

All credit cards shall be in the name of the School District. Credit cards may only be used for legitimate School District business expenditures. The use of credit cards is not intended to circumvent the District's policy on purchasing. Purchases that are unauthorized, illegal, represent a conflict of interest, are personal in nature or violate the intent of this policy may result in credit card revocation and discipline of the employee.

The Superintendent shall monitor monthly the use of each credit card by reviewing credit card expenditures and report any serious problems and/or discrepancies directly to the Board.

**Credit Card Users**

A list of those individuals that will be issued a District credit card shall be maintained in the Business Office and reported to the Board each year at its reorganizational meeting in July.

Credit card users must take proper care of the credit card(s) and take all reasonable precautions against damage, loss or theft. Any damage, loss or theft must be reported immediately to the Business Office and to the appropriate financial institution. Failure to take proper care of credit cards or failure to report damage, loss or theft may subject the employee to financial liability.

Users must submit detailed documentation, including itemized receipts for services, travel and/or other actual and necessary expenses which have been incurred in connection with school-related business for which the credit card has been used. Failure to provide a proper receipt can make the employee responsible for expenses incurred.

The District shall establish a credit line not to exceed \$5,000 for each card issued and an aggregate credit limit of \$25,000 for all cards issued to the district.

**Return of Credit Card**
