Mrs. Tibbals 6th grade

ctibbals@troysd287.org

(208)835-4261

Dear Families,

Our ISATs are almost complete! Students were assessed in the areas of math and ELA. Sixth grade students did an amazing job of staying focused and giving the state testing everything they had. I have told them that the effort they put forth was everything I had hoped for. They truly gave it their all and I am so proud of them.

With a month of school to go we have lots of fun and challenging activities and projects to look forward to completing. We have the music festival in Lewiston May 9th, steelhead dissection May 17th, the release day May 22nd, touring the Jr. High, meeting next year's teachers, and helping to facilitate field day. We continue to work on new skills in math, spelling, and reading.

Mars Rover competition was incredible! Every student did an excellent job. Teams participated in the hill climb, rock collection, speed competition, obstacle course, as well as giving a formal presentation. The students had a great attitude. I am very proud of them.

Thank you, family and friends, who were able to get away to share in this fun day.

~Crystal Tibbals

All-school assembly (8:30)
and Field day
(Early release at 1:15)

Steelhead Release Day

Sixth grade students will be going to Spalding Native American Interpretive Center on Tuesday, May 22nd for an all-day field trip. Idaho Fish and Game will help us release the steelhead trout the 6th grade have been raising all spring. Students will also participate in several outdoor science activities.

All students will need to wear appropriate clothing and footwear, bring water, and a lunch. Parents are welcome to attend. Specific details will be available as the event gets closer.
