(208)835-4261

Dear Families,

Our ISATs are almost complete! Students were assessed in the areas of math and ELA. Sixth grade students did an amazing job of staying focused and giving the state testing everything they had. I have told them that the effort they put forth was everything I had hoped for. They truly gave it their all and I am so proud of them.

With a month of school to go we have lots of fun and challenging activities and projects to look forward to completing. We have the music festival in Lewiston May 8th, steelhead dissection May 9th, the release day May 20nd, country research reports, touring the Jr. High, meeting next year's teachers, and helping to facilitate field day. We continue to work on new skills in math, spelling, and reading.

~Crystal Tibbals

Upcoming Events

Steelhead Release Day (DATE CHANGE!)

Sixth grade students will be going to Spalding Native American Interpretive Center on Tuesday, May 20th for an all-day field trip. Idaho Fish and Game will help us release the steelhead trout the 5th & 6th grade have been raising all spring. Students will also participate in several outdoor science activities. A sack lunch is needed for this trip and can be purchased through the lunchroom, if needed.

All students will need to wear appropriate clothing and footwear, bring water, and a lunch. Parents are welcome to attend. Specific details will be available as the event gets closer.

UI Engineering Design Expo

Nearly all students from the elementary school went to the UI for the EXPO last Friday. This fantastic day was full of activities and great examples for students to see the projects and innovations done right here in our local community. I took just a few photographs to share with you.
